Fifty-first Year
Buechly's Price-List
of Choice and Rare Varieties
of
Peonies and Irises
Season of 1929

Buechly's Nurseries

E. M. BUECHLY, Proprietor
GREENVILLE, OHIO

Telephone 2027-A

Introduction

In this fifty-first year in the nursery business, we extend our greetings, and thank our patrons for the measure of success we have attained and we hope by fair dealing to merit a share of your business in the future. A satisfied customer is our best advertisement. We use care that stock shall be true to name and healthy and if any should prove to be otherwise, will replace free of cost to the purchaser. We personally superintend the digging and packing, and if for any reason, the plants are not satisfactory, you may depend on us to adjust same to your satisfaction. To save overhead expense we issue this price-list in this brief form, many of you have my 1928 Catalog which gives fuller descriptions and cultural directions and we have a good supply of these on hand, and will mail them where requested. The prices of course are out of date, and must be according to this, 1929 list, which is far better for the buyer.

Terms are net cash, unless otherwise arranged and supercede all former lists. Retail orders delivered free in U. S.

We find it is far better to see a plant and its bloom in the field than to select from a catalog be it ever so well illustrated or described in word pictures and we would therefore suggest that if you are situated so you can arrange a visit to the peony and iris field, it will be a revelation to you. Then you can compare the wonderful colors, and choose the ones that appeal to you. Visitors always welcome.

Peonies

The following abbreviations are used in the following lists: Brand (B.), Crousse (C.), Lemoine (Lem.), Kelway (Kel.), Hollis (Hol.), Richardson (R.), Guerin (G.), Goos & Koene-
man (G. & K.), Calot (Ca.), Pleas (P.), Donka-
lier (Don.), Rosefield (Ros.), Gombault
(Gom.), Verdier (Ver.), Vilmorin (Vil.),
Sturtevant (Sturt.), Millet (Mil.) Early (E.),
Midseason (M.), Late (L.).

Size of Plants in Peonies standard divisions 3 to 5 eyes, as adopted by the Commercial peony and iris growers Association, and in irises well grown rhizomes, differing in size owing to variety.

JUST A FEW OF THE KIND WORDS FROM OUR PATRONS

Reading, Pa.

"Received the peonies in splendid condition."

Mt. Gilead, Ohio.

"You certainly send out good divisions of peonies and I think that you may expect a good sized order from me next season."

Jackson, Mich.

"I wish to say that the peonies have proved very successful. They have bloomed every year since planting."

Irises

Tall Bearded Varieties
